

DOLCE

technical sheet

This product consists of 8 main modules.

- Product: 215 cm Sofa
- Product: 275 cm Sofa
- Product: 188 cm Single Arm L/R
- Product: 80 cm Element
- Product: 235 cm Sofa
- Product: 280 cm Sofa
- Product: 208 cm Single Arm L/R
- Product: 95x95 cm Element

STRUCTURE

The main frame carrier parts are 2.2 cm beech plywood. Supporting pillars are 1.8 cm poplar plywood. The seating is reinforced with a 3 mm thick felt pad. Springs have a decisive influence on the comfort of sitting and that's why Caridia utilizes 3.8 mm thick steel Zig Zag springs in order to offer customers a comfortable feeling. The main parts of the frame such as front panel, outside back, and outside arms are coated with 28 DNS foam and 25 Forta memory foam respectively and wrapped with 250 g/m² fiberfill. DOLCE offers 4 different setup variations with the help of different modules. Each module can be easily and securely fastened together with the help of the provided alligator clips.

SEATING COMFORT

The seating and back cushions are mono-block and designed as High Resilient (HR) foam. Caridia aims balancing the rigidity and the comfortability of DOLCE by employing a unique foam design in order to emphasize the quality sitting and perfect appearance. The sitting cushion is composed of three layers of foam at different density levels, 35 HR at the bottom, 25 HR in the middle, and 50 DNS Visco memory foam on top of it, and finally coated with 250 g/m² fiberfill wrap. While the inner back and inner arms are coated with 25 HR and 50 DNS Visco memory foam, upper arms and vertical parts are coated with 35 HR and 50 DNS Visco memory foam and all wrapped with 250 g/m² fiberfill.

LEGS

DOLCE comes with custom design 14 cm profile frame metal legs offered in semi-matte black painted or chrome. It is easily mounted to the frame with M8 bolts and completes the desired seating ergonomics. The sofas are also enhanced with middle support legs for sturdiness.

STRUCTURE
