

# NOBLE

technical sheet

## This product consists of 8 main modules.

- Product: 200 cm Sofa
- Product: 300 cm Long Sofa
- 125 cm Single Arm Sofa (L&R)
- Product: 170 cm Single Arm Sofa (L&R)
- Product: 250 cm Sofa
- Product: 340 cm Long Sofa
- Product: 150 cm Single Arm Sofa (L&R)
- Product: 100 x 170 Chaise Longue (L&R)

## STRUCTURE

The main frame carrier parts are 2.2 cm beech plywood. Supporting pillars are 1.8 cm poplar plywood. The bottom is supported with 1.8 cm beech plywood. The seating is reinforced with a 3 mm thick felt pad. Springs have a decisive influence on the comfort of sitting and that's why Caridia utilizes 3.8 mm thick steel Zig Zag springs in order to offer customers a comfortable feeling. The main parts of the frame such as front panel, outside back, and outside arms are coated with 28 DNS foam and wrapped with 125 g/m<sup>2</sup> fiberfill. NOBLE offers 4 different setup variations with the help of different modules. Each module can be easily and securely fastened together with the help of the provided alligator clips.

## SEATING COMFORT

The seating and back cushions are monobloc and designed as High Resilient (HR) foam. Caridia aims balancing the durability, comfortability, and stylishness of NOBLE by employing an eye-catching foam design in order to emphasize the quality sitting and perfect appearance. The sitting cushion is composed of two layers of foam at different density levels, 25 HR at the bottom and 25 DNS memory foam on top of it, and finally coated with 250 g/m<sup>2</sup> fiberfill wrap.

While the inner back and inner arms are coated with 25 DNS memory foam, upper arms, and upper vertical parts are coated with 25 HR foam and all wrapped with 250 g/m<sup>2</sup> fiberfill. The sofa is designed with a 108-degree sitting and leaning angle to complement the product ergonomics, visibility and excellent appearance.

## LEGS

Noble comes with high quality kiln dried beechwood frame and legs -20cm- offered in different colors.
