

OSCAR

technical sheet

This product consists of 10 main modules.

- Product: 205 cm Sofa
- Product: 250 cm Sofa
- Product: 181 cm Single Arm L/R
- Product: 232 cm Single Arm L/R
- Product: 99 × 99 cm Pouf
- Product: 235 cm Sofa
- Product: 151 cm Single Arm L/R
- Product: 205 cm Single Arm L/R
- Product: 99 × 223 cm Chaise Longue L/R
- Product: 122 x 122 cm Pouf

STRUCTURE

The main frame carrier parts are 2.2 cm beech plywood. Supporting pillars are 1.8 cm poplar plywood. The seating is reinforced with a 3 mm thick felt pad. Springs have a decisive influence on the comfort of sitting and that's why Caridia utilizes 3.8 mm thick steel Zig Zag springs in order to offer customers a comfortable feeling. The main parts of the frame such as front panel, outside back, and outside arms are coated with 28 DNS and wrapped with 250 g/m² fiberfill. OSCAR offers 16 different setup variations with the help of different modules. Each module can be easily and securely fastened together with the help of the provided alligator clips.

SEATING COMFORT

The seating and back cushions are mono-block and designed as High Resilient (HR) foam. Caridia aims balancing the rigidity and the comfortability of OSCAR by employing a unique foam design in order to emphasize the quality sitting and perfect appearance. The sitting cushion is composed of three layers of foam at different density levels, 35 HR at the bottom, another 25 HR in the middle, and down feather envelope filled with a special mix of goose feather and ball fiber on top, and finally coated with 250 g/m² fiberfill wrap. While the inner back and arms are coated with 25 HR, outer back and arms are 25 Forta memory foam. Upper vertical parts and upper arms are coated with 28 DNS, and all wrapped with 250 g/m² fiberfill. The sofa is designed with a 105-degree sitting and leaning angle to complement the product ergonomics, visuality and excellent appearance.

LEGS

OSCAR comes with custom designed 10 cm semi-matte black painted metal legs mounted to the frame with M8 bolts. Sofas enhanced with middle support legs for sturdiness.

STRUCTURE

FRAME	Plywood + Beech Plywood + MDF	
SPRINGS	3,8 mm Zig Zag Springs
