

SPRING

technical sheet

This product consists of 7 main modules.

- Product: 230 cm Sofa
- Product: 132 cm Single Arm Sofa (L&R)
- Product: 107 x 165 Chaise Longue (L&R)
- Product: 107 x 107 cm Pouf
- Product: 264 cm Long Sofa
- Product: 107x107 Corner
- Product: 100 cm Module

STRUCTURE

The main frame carrier parts are 2.2 cm beech plywood. Supporting pillars are 1.8 cm poplar plywood. The bottom is supported with 1.8 cm beech plywood. The seating is reinforced with a 3 mm thick felt pad. Springs have a decisive influence on the comfort of sitting and that's why Caridia utilizes 3.8 mm thick steel Zig Zag springs in order to offer customers a comfortable feeling. The main parts of the frame such as front panel, outside back, and outside arms are coated with 28 DNS foam and wrapped with 125 g/m² fiberfill. SPRING offers 8 different setup variations with the help of different modules. Each module can be easily and securely fastened together with the help of the provided alligator clips.

SEATING COMFORT

The seating and back cushions are removable and designed as High Resilient (HR) foam. The back cushions are filled with a special blend of goose down and ball fiber. The sitting cushion is composed of three layers of foam at different density levels, 35 HR at the bottom, 25 HR in the middle, and 26 Hyper on top of it, and finally coated with 125 g/m² fiberfill wrap. While the inner back and the inner arms are coated with 25 HR foam, upper arms, and upper vertical parts are coated with 45 HLB foam and all wrapped with 125 g/m² fiberfill.

LEGS

Brushed black metal V shape legs with 13 cm height reveal the elegant design. Connections between different modules are provided with middle metal support legs.

SPRING sofa has a timeless style. The diagonal arm structure reveals its potential energy. Extra soft foam and rollover cushions on the back rest carries the comfort feeling to a higher level.
